

FOR IMMEDIATE RELEASE

Dresser Wayne Nucleus® Point-of-Sale System Surpasses 11,000th Installation

Industry's most popular touch screen POS is ready for shipping to help petroleum retailers achieve PCI compliance before looming deadline

AUSTIN, Texas (April 23, 2010) – Dresser Wayne (www.DresserWayne.com), a global innovator of fuel dispensers and technologies, announces the 11,000th installation of the popular Nucleus® point-of-sale system. Built on the retail-hardened IBM® platform and available for installation with Dresser® Wayne®, Gilbarco and other dispensers, Nucleus POS is the most popular touch screen system in the petroleum industry today.

As PCI compliance deadlines approach, the Dresser Wayne Nucleus POS system is the ideal choice for retailers who operate a variety of C-store configurations and credit networks. Dresser Wayne Nucleus POS has been certified as PCI compliant and our wide network of distributors and service providers stand ready to assist petroleum retailers with all their PCI compliance needs.

“The Dresser Wayne Nucleus POS system is the most popular touch screen system in the industry today,” said Tom Chittenden, Retail Systems Product Manager for Dresser Wayne. “With the integration of Dresser Wayne’s Fusion™ Forecourt System, Nucleus POS can interface with virtually any dispenser on the island, regardless of manufacturer. Thousands of petroleum retailers know that Nucleus enables faster employee training times, flexible merchandising capabilities, and connectivity with a wide variety of petroleum retail peripherals, all of which translates into real bottom line value.”

Durable, user-friendly and proven, Dresser Wayne Nucleus POS consistently ranks as the most popular* touch screen POS system among petroleum retailers. Nucleus POS is built upon a retail-hardened IBM platform and is designed specifically to endure the daily rigors of the busy C-store environment. The large, easy-to-use Nucleus POS touch screen enables faster, more accurate transactions allowing retailers to serve their customers efficiently. Nucleus POS system has been certified as PCI compliant providing retailers the peace of mind that they are PCI compliant, now and in the future.

The Nucleus POS is certified to operate with Dresser Wayne dispensers as well as those of competitive manufacturers. More than 25 percent of all Nucleus POS systems installed today interface with non-Dresser Wayne dispensers. Released in early 2009, Fusion Forecourt System interfaces with multi-vendor point-of-sale systems and forecourt devices for simplified retail fuel control.

** based on industry installation data, Dresser Wayne touch screen POS systems are installed in more petroleum retail sites than from any other manufacturer*
