

Dresser, Inc.

FOR IMMEDIATE RELEASE

**Dresser® Mooney® Slam Shut™ Valve line
expands to include 1” through 4” sizes.**

Salt Lake City, UT (May 3, 2010) – Dresser’s Mooney® Slam Shut™ Valve line has now been expanded to include a 1” linear plug design and rotary design sizes to 4”. The 2”, 3” and 4” sizes can be integrated into a Flowgrid® Regulator or can stand alone.

The Mooney Slam Shut Valve is a unique pneumatically actuated device that provides accurate over and / or under downstream pressure protection. Its patent pending design guarantees a snap acting release of the latch only when designated set points are exceeded. This eliminates costly “accidental shutoffs” from vibration or conditions other than over/under pressures.

A positive shutoff is achieved instantly with zero pressure differential requirements and an easy reset can be completed with common hand tools. The Mooney Slam Shut is an ideal solution to provide reliable and safe downstream protection.

About Dresser® products

Dresser is a designer, manufacturer and distributor of natural gas measurement, pressure control and pipeline integrity products, service and repair. Dresser products are highly engineered, technically superior and are designed to help global customers meet and exceed requirements for mission-critical energy projects. Leading Dresser product lines include: RCS® and Andco® actuators, Dresser® meters & instruments, Becker® control valves, Mooney® and RedQ® regulators, Piping Specialties, FloSystems prefabricated sets and Blackhawk® products.

About Dresser, Inc.

Dresser, Inc. is a leader in providing highly engineered infrastructure products for the global energy industry. The company has leading positions in a broad portfolio of products, including valves, actuators, meters, switches, regulators, piping products, natural gas-fueled engines, retail fuel dispensers and associated retail point-of-sale systems, and air and gas handling equipment. Leading brand names within the Dresser portfolio include Dresser Wayne® retail fueling systems, Waukesha® natural gas-fired engines, Masoneilan® control valves, Consolidated® pressure relief valves, and ROOTS™ blowers. It has manufacturing and customer service facilities located strategically worldwide and a sales presence in more than 150 countries.
